Chippewa Valley Electric Cooperative

March 2011

YOUR METER MUST BE READILY ACCESSIBLE

Please, before you do any work involving the enclosing of or covering of your meter socket and the Cooperative meter, contact Chippewa Valley Electric Cooperative to make sure the work you will be doing will not cost you the additional expense to have the meter moved.

More often than we like our crew will come upon a meter that has become enclosed, either by an addition built around it or sided over (see two photos below). Those situations create a number of problems, including violating the National Electric Safety Code and not allowing access by our crew to the Cooperative meter.

When we become aware of a meter location problem, we contact the member and work to have the meter moved to an acceptable location. In most cases the member will need to install a meter pedestal (see photo above) at the member's expense. Currently, the meter pedestal costs \$645.00 installed, but the cost could be higher depending on the situation. Chippewa Valley sometimes makes payment arrangements in those instances to help out the members.

REMINDER

DAYLIGHT SAVINGS TIME BEGINS ON MARCH 13, 2011

REMEMBER TO SET YOUR CLOCKS AHEAD ONE HOUR!

DO YOU DEPEND ON LIFE-SUPPORT EQUIPMENT?

While Chippewa Valley Electric Cooperative strives to maintain the best possible service with a minimum of outage time, occasional outages, either planned or uncontrolled, do occur.

We at Chippewa Valley Electric need to know the names and locations of cooperative members who depend on life-support equipment, and it is important that this information be current and accurate. We will make every effort to give priority to members on life-support equipment when restoring service. Please fill out the form below and mail it to us.

YES, I DEPEND ON LIFE-SUPPORT EQUIPMENT

Member's Name _____

Phone Number _____

Address _____

City _____ State _____ Zip _____

Account Number _____

Type of Support Equipment _____

Do you have an emergency standby generator to operate this equipment? Yes ____ No ____
